**RE: HPV Chemical Challenge Program, AR-201**

Dear Ms Whitman:

On behalf of Eastman Chemical Company, I am pleased to submit a revised test plan for "Aldehydes, C4, self-condensation products, high-boiling fraction (Solvent C; CAS No.: 68990-21-6). The enclosed test plan has incorporated many of the concerns raised by the EPA in their initial review letter dated January 15, 2003. As can be seen in this new submission, Eastman has presented substantially more information to increase its clarity and usefulness to the public to assess the risks associated with the mixture of chemicals that may be present in this CAS number.

Enclosed with this letter is a computer diskette containing the test plan and robust summaries in Adobe Acrobat (.pdf) format. The HPV registration number for Eastman Chemical is

We understand this information will be posted on the internet for comments for a period of 120 days. Please forward comments to me at the above address.
